Applicant's election without traverse of Group IV, claims 40-43, in Paper No. 7 is acknowledged.

Claims 1-39 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 40-43 are rejected under 35 U.S.C. 103(a) as being unpatentable over applicant's admitted prior art in view of Robinson (US 6089499).

The admitted prior art is discussed on pages 1-2 of the specification and in the preamble of claim 40. Robinson discloses another similar apparatus having the claimed funnel. The angle appears to be about 30 degrees. It would have been obvious to one of ordinary skill in the art to alternatively provide the admitted prior art apparatus with a funnel as taught by Robinson to conveniently dispense the paper towards the user.
